

What your day scope sees in the dark with a NiteSite

NITE SITETM
Your night vision

Scope mounted infrared night vision systems by NiteSite

At NiteSite we design and manufacture patented infrared night vision (IRNV) products for hunting, security, and zero ambient light observation. We utilise infrared in a unique way to make our products more affordable, reliable and user friendly than traditional light amplification technologies. Our products deliver crisp, ultra-clear night vision, even in zero light conditions.

The true beauty of a NiteSite is that it converts your day scope (there's no need to remove it) into a powerful night vision system that is quick and simple to set up.

NiteSite continues the night vision revolution by introducing a brand new product range. The VIPER for short range hunting, WOLF for medium range targets and the ultra powerful EAGLE for long range strikes have been designed to meet the requirements of all types of hunter.

Our scope mounted products are augmented by our hand held SpotterXtreme designed to complete the hunting and scouting experience.

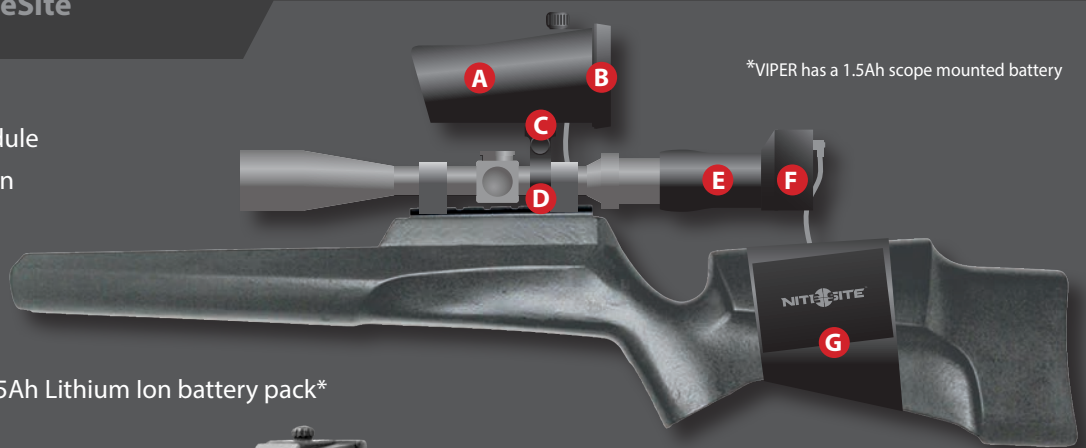

If you want to hunt at night... it's got to be NiteSite.

Every NiteSite features:

- Suitable for use with any rifle
- 60 second installation
- Ultra clear night vision
- No need to re-zero
- No ambient light required
- IR Frequency 850nm
- AV output 3.5mm 4 pin jack
- 3.5 inch display screen
- Water resistant
- Can be used both day and night
- Rechargeable Lithium Ion battery
- All-in-one night vision system

Anatomy of a NiteSite

- A - IR illuminator module
- B - LCD viewing screen
- C - Anti recoil clamp
- D - Scope clamp
- E - Scope sleeve
- F - IR camera unit
- G - Stock mounted 5.5Ah Lithium Ion battery pack*

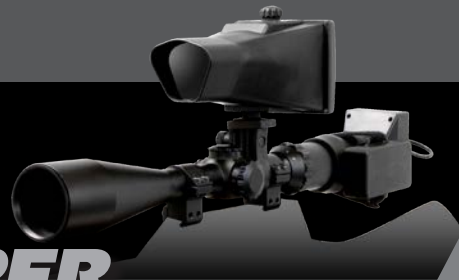

*VIPER has a 1.5Ah scope mounted battery

VIPER

VIPER is designed to be the most affordable, high quality night vision system on the market for short-range distances. The VIPER is perfect for the up-close and personal hunter.

SHORT RANGE STRIKE NITESITE

- Identification range 110+ yards*
- 1 integral IR LED
- Weight excluding battery 15 ounces
- Operational run time up to 7.5 hours
- 1.5Ah scope mounted battery

WOLF

WOLF is the perfect product for any hunter, delivering high quality, clear night vision for your rifle scope. The WOLF provides maximum versatility and a huge advantage to the night hunter.

MEDIUM RANGE STRIKE NITESITE

- Identification range 330+ yards*
- 3 integral IR LEDs
- Weight excluding battery 18.5 ounces
- Operational run time up to 25 hours
- 1.5Ah scope mounted or 5.5Ah stock mounted battery

EAGLE

EAGLE is for the hunter who wants a product without limitations. The EAGLE is a force to be reckoned with. Much like nature's eagle, this NiteSite will spot and identify quarry so far away it almost seems unfair.

LONG RANGE STRIKE NITESITE

- Identification range 550+ yards*
- 5 integral IR LEDs
- Weight excluding battery 20 ounces
- Operational run time up to 25 hours
- 5.5Ah stock mounted battery

SPOTTER XTREME

LONG RANGE SPOTTER

SpotterXtreme has been designed to complete the night hunting experience. Doing what no night vision monocular can do, the NiteSite SpotterXtreme allows the hunter to identify and advance on the prey without detection.

- Identification range 550+ yards*
- 20x optical zoom
- Field of view 25°
- Operational run time up to 20 hours
- No ambient light required
- IR frequency 850nm
- Video output 3.5mm 4 pin jack
- 5 integral IR LEDs
- Water resistant
- Weight 46 ounces
- Built in rechargeable 3.5Ah battery
- All-in-one night vision system

Realtree camouflage finishes

All NiteSite products are available in a range of field durable RealTree camouflage finishes.
